

Folding SF Interior 6 - Walls - sheet 1

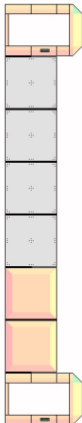

Glue reverse to wall and glue unit to floor.

Gungnir - gert.postma@kabelnetvisit.nl

Folding SF Interior 6 - Walls - sheet 2

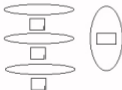

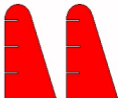

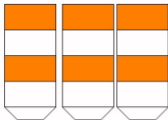

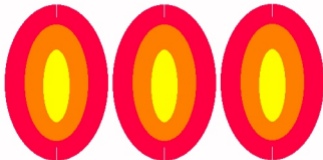

Glue reverse to wall, then
glue unit to floor.

Folding SF Interior 6 - Walls - sheet 3

Folding SF Interior 6 - Reactor Core

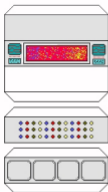

Fold and glue the three core blocks. Assemble core as sketched, placing the blocks in the center of the core disks.

When completed, glue the bottom block on the floor sheet in the indicated position.

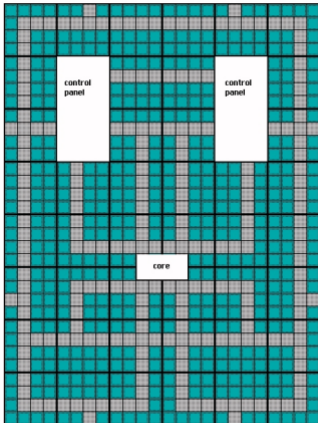

The core can still fold flat when desired. Push in the two core supports. These give the core its rigidity. Do not glue, the supports should stay removable.

Folding SF Interior 6 - Control Panels and Doors

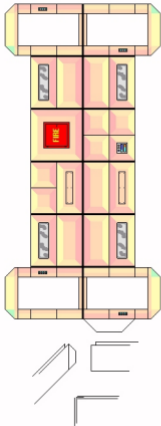

Glue control panels to wall and floor as indicated.

SF Interior 6 – Floor

Folding SF Interior 6 - Outer Walls

print 2x

assemble outer walls as sketched,
use outer walls as desired.
