

# Cthulhu

**Thanks for downloading my paper model. JIM**

I am trying to make my instructions with a little text as possible. Hopefully these instructions will make it easier for you to make the model. I break down the model into stages, parts prep first, then model assembly. Take care to make your cuts and scores as precise as possible, and I also encourage you to black edge all of the exposed parts. I recommend using 65# card, this will make assembly and cutting much easier and still have a robust model. Enjoy.

## PARTS PREP

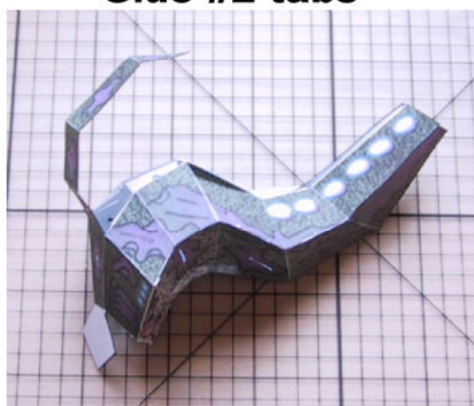

**BODY, cut out, scored.**

**Glue all #1 tabs**

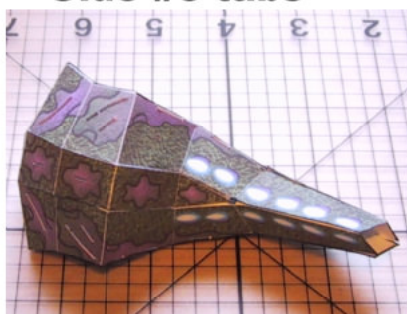

**Glue #2 tabs**

**Glue #3 over/under tab**

**Glue #3 tabs**

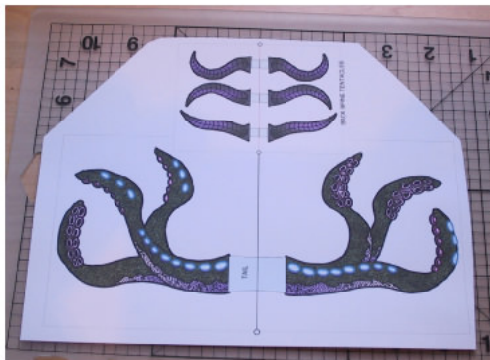

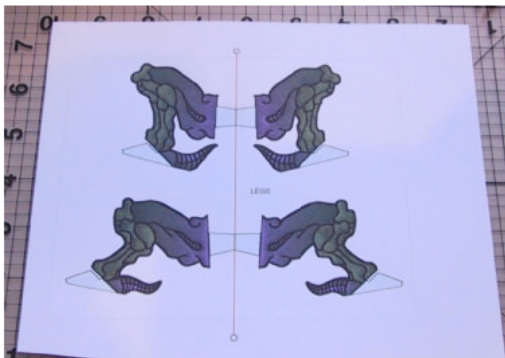

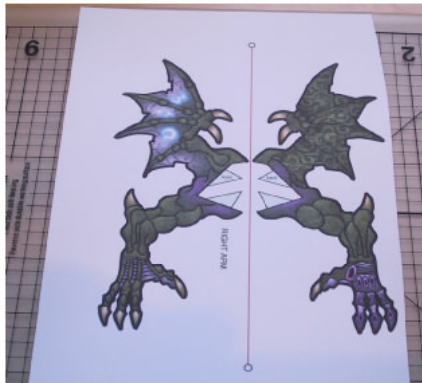

**Glue #4 tabs**

Body is done.

# ARMS, LEGS, TAILS and TENTACLES, and HEADS

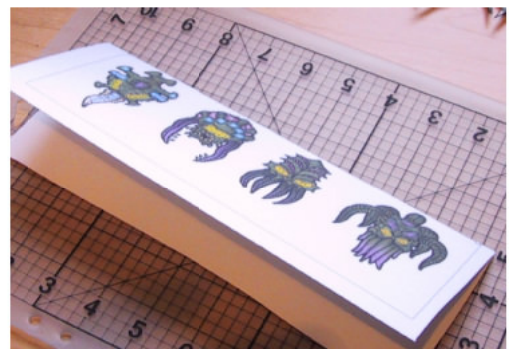

**Score fold line.**

**You only need one head.**

**Fold, glue, cut out when dry.**

# WINGS

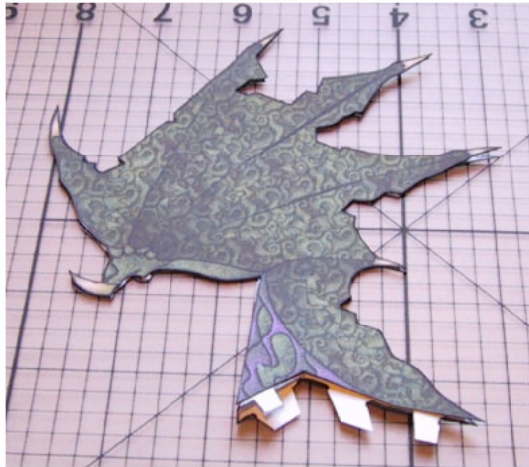

**Cut out and score each side.**

**Fold and glue inner support tab.**

**Glue backside.**

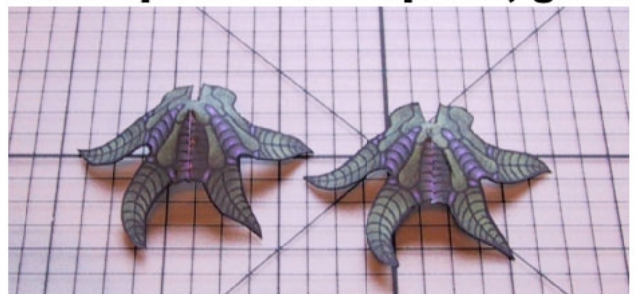

# FEET

**Cut out each foot, don't score.**

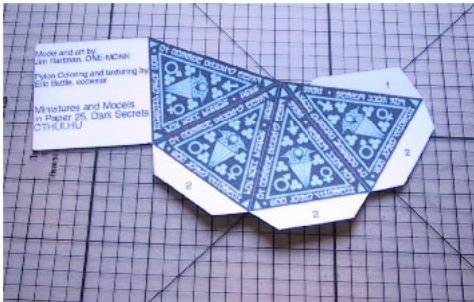

**Curve part to line up tab, glue.**

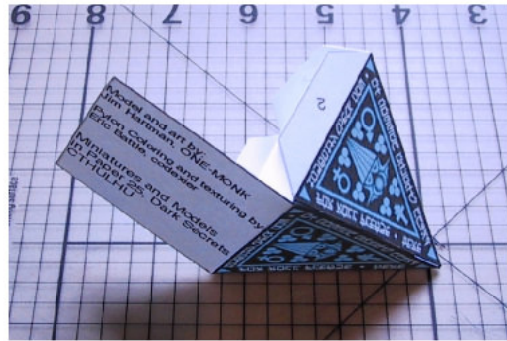

# PYI ONS

**Cut out and score.**

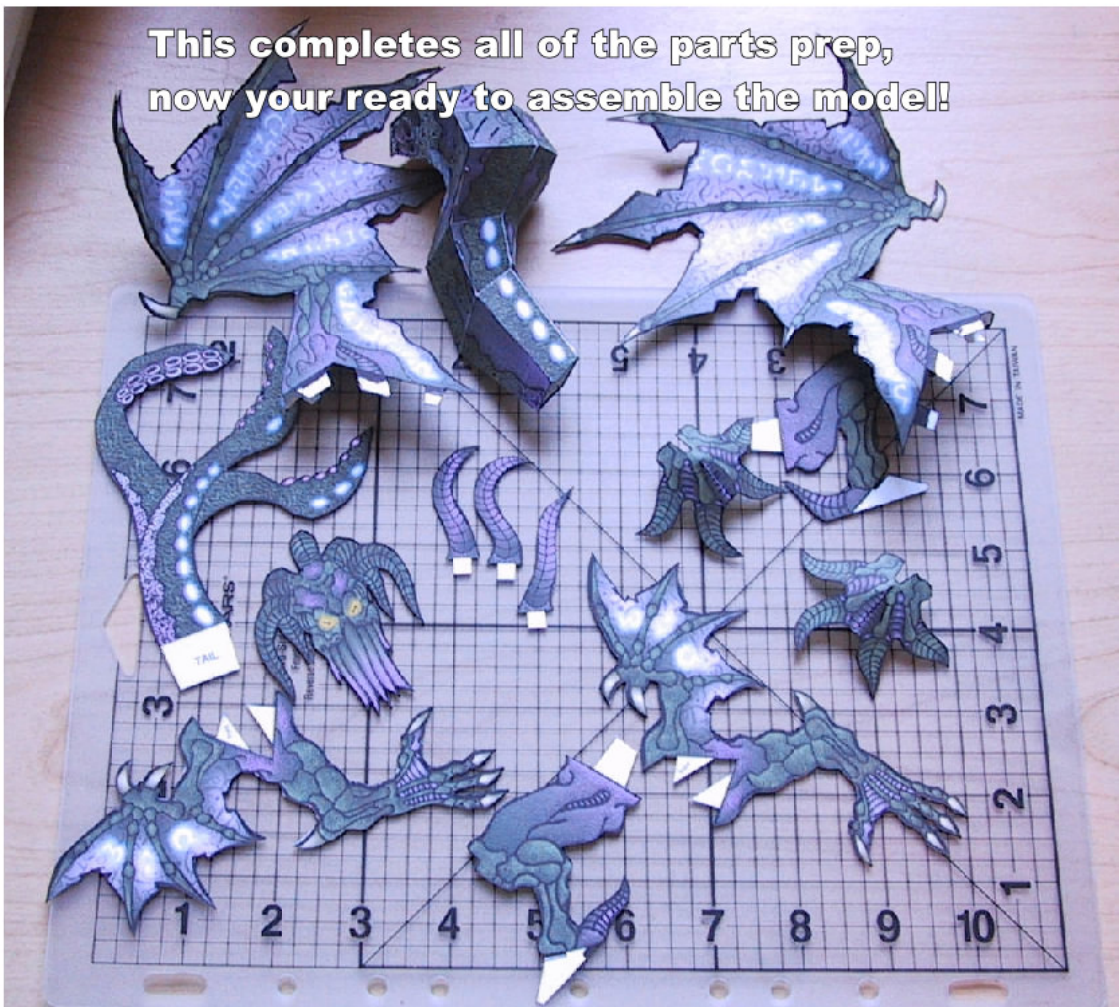

**Glue #1 tab.**

**Glue #2 tabs, and done.**

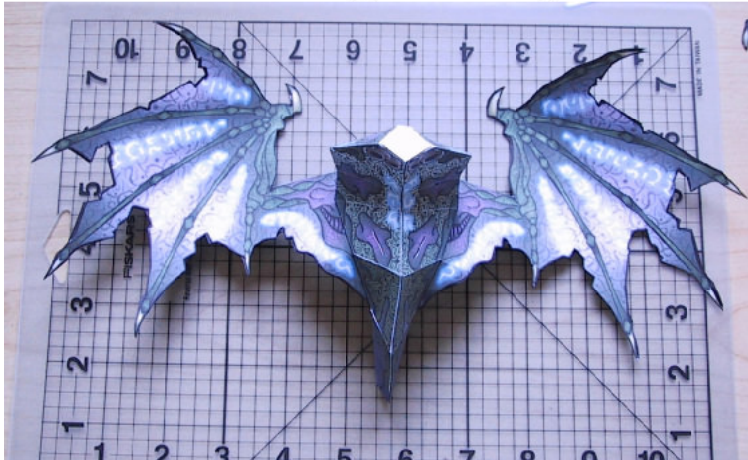

**This completes all of the parts prep,  
now your ready to assemble the model!**

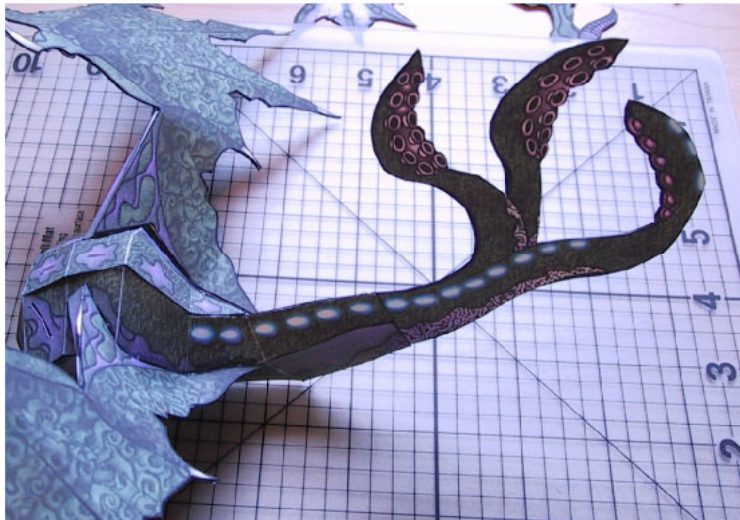

# MODEL ASSEMBLY

**Glue wings to body.**

**Glue tail.**

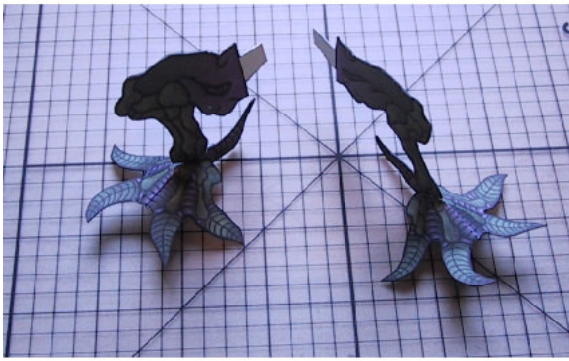

**Glue arms.**

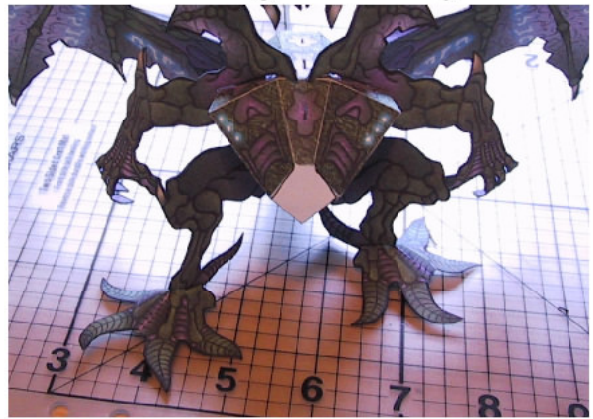

**Glue feet to legs.**

**Glue legs to body.**

**Glue back spine tentacles.**

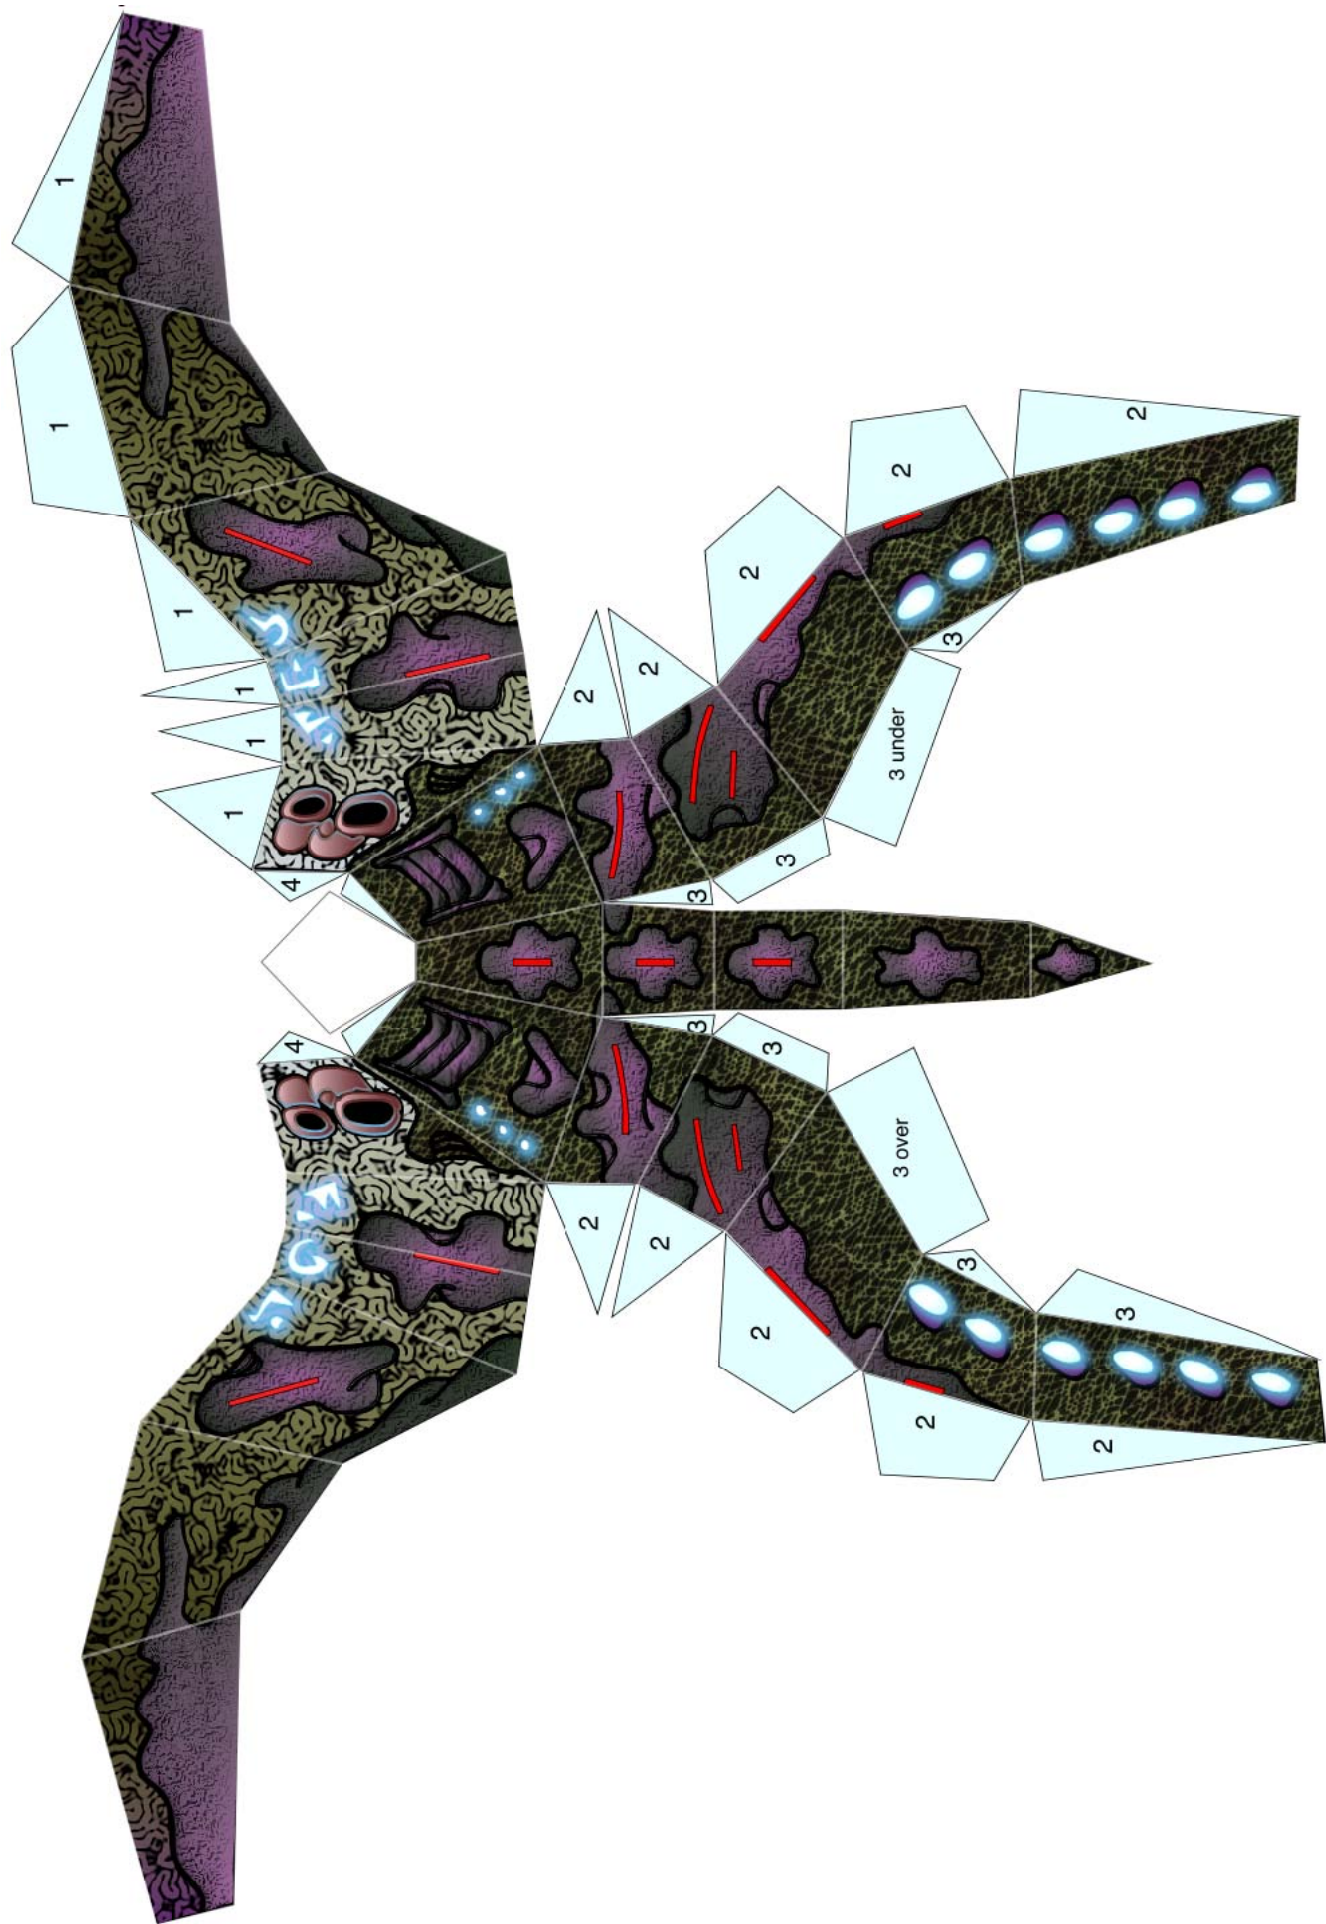

**Any tentacle can be glued at any spot. Be aware of which head you will be using, so that it clears the head.**

**Glue your chosen head in place.**

**You now have your completed Cthulhu model!**
